

Unforgettable Phone Numbers Increase Calls!

Tired of hearing they couldn't
remember your number?

Why spend thousands only for them to still have to
look up your number and see your competitors?

Give them the ability to remember your number long
after the commercial is over!

**Get better response
from your radio
advertising!**

INTRODUCTION

UnforgettablePhoneNumbers.com

If you had only seconds to get them to remember you, would you do it with:
1-800-226-8896
or
1-800-About You

WHY AN UNFORGETTABLE PHONE NUMBER?

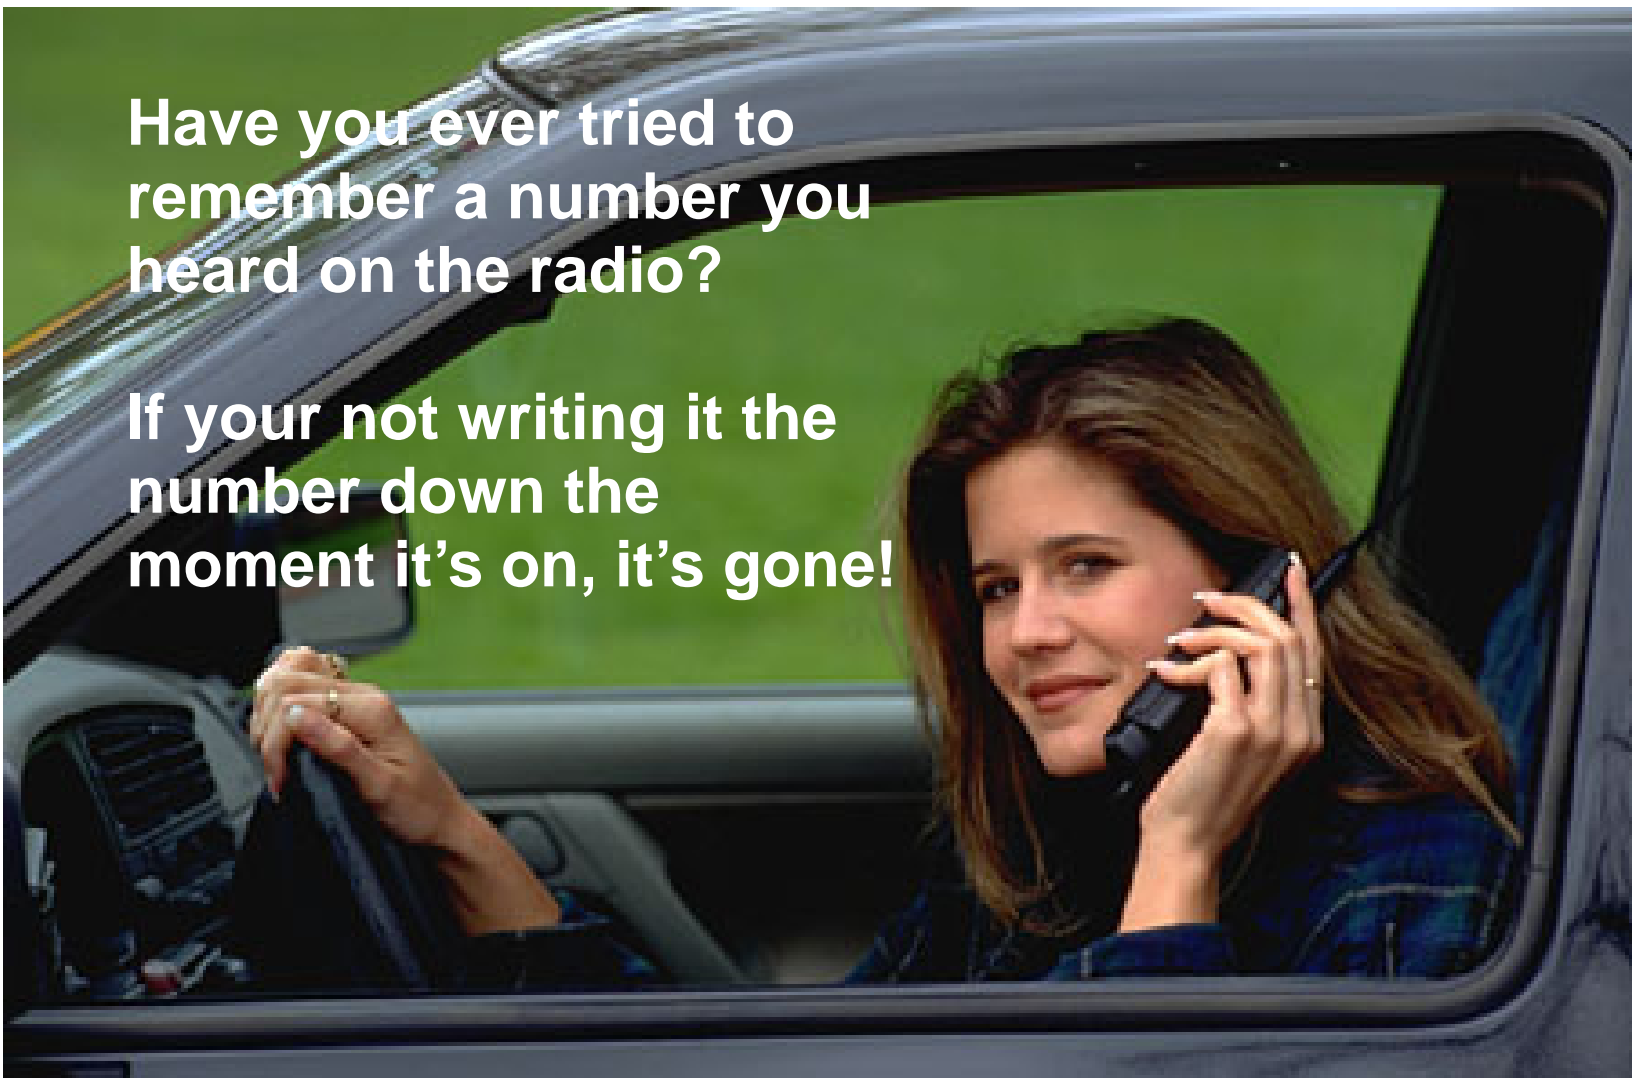

All day long you will hear or see ads that have unforgettable phone numbers because they can increase the effectiveness of advertising by as much as 1400 percent!

For example:

1-800-COLLECT® - MCI 1-800-NEXT-BED® - The SLEEP NUMBER BED 1-877-82-SPRINT® - SPRINT
1-888-KENMORE® - KENMORE 1-866-4-BEST-4-U® - QUEST CELL PHONES

To be successful do what successful people do.

Every add that ran with a phone number in the last SuperBowl had an unforgettable phone number. There's one simple reason; people remember words easier and longer than numbers. At Enhanced Marketing we'll help you get remembered. Let us get you connected to a unforgettable phone number that relates to your company name or business.

A woman with long brown hair is sitting in the driver's seat of a car, talking on a black mobile phone. She is wearing a dark blue plaid shirt. The car's interior, including the steering wheel and dashboard, is visible. The background outside the car is a blurred green field.

Have you ever tried to
remember a number you
heard on the radio?

If your not writing it the
number down the
moment it's on, it's gone!

Consider their options now...

They have to remember the name of your company long enough to look you up when they get to their destination, only to also see your competition.

They need to hope to hear your commercial again, which costs you even more.

It causes them to think "That was a nice commercial that reminds me...", and they go look up their local contractor anyway.

Which number would you remember longer?

1-800-736-3623

Consider the effect of an Unforgettable Phone Number in 4 common marketing areas

Increase the effectiveness of your advertising by 3 to 14 times, by adding a memorable word number.

*In a recent study,
radio ads with a
vanity number drew
14 times more calls
than those with a
numeric number.*

Word Numbers have proven value

If your advertising is missing a unforgettable word phone number, your losing 25% to 90% of the possible leads.

800 Vanity numbers work not only because their toll-free but more because they are super easy to remember.

A Bellcore study reveals that unforgettable 800 number ads out perform local number ads by SIX TO ONE.

Unforgettable word numbers help keep existing customers by preventing them from looking where your competitors are advertising or listed only to be side tracked or switched.

"We added the **1-888-NEED-A-PIZZA** number to our pizza boxes and flyers and generated an additional \$300,000.00 per year." (See our web site for full article)

1-800-NEW-BATH... notes more than, 200 percent jump in responses to commercials using the new number (See our web site for full article)

79% of 15 second commercials with toll-free numbers use vanity numbers, as do 75% of 30 second commercials.

In a TV campaign test of **1-800-PRODIGY** versus their numeric 800 number, the vanity number pulled 25% more response, over a 24 hour longer period of time.

Source: Author/Correspondent's Profile: Judith Oppenheimer , Publisher, ICB Toll Free (800/888) News

800 FACTS

More than 50 percent of the long-distance calls in the U.S. are actually toll-free calls.

90% of Americans say they use toll-free numbers.

More than one-third of Americans estimate that they make 60 or more toll-free calls per year.

Toll free calling generated an estimated \$157 billion in annual sales of goods and services in 1997.

800 numbers in print, catalog and online advertising

- 58% of magazine ads contain a toll-free number, with 82% using the 800 prefix.
 - 34% of magazine ads with toll-free numbers display them prominently, versus only 15% of internet address displays.
 - 84% of current Internet users search for product or service information online in order to make a toll-free call purchase.
 - A Bellcore study reveals that 800 number ads outperform local-number ads by six to one.
 - The average phone order from a catalog can be 30% to 70% higher than the average mail order.
 - Because telephone buyers use credit cards, they order more merchandise and higher ticket items 95% of the time.
 - A productive ad featuring an 800 number can generate approximately 30% more orders.
- Fund-raising organizations have increased their response approximately 25% by adding an 800 number in commercials, print ads or direct mail pieces.

800 numbers in tv and radio commercials

- 24% percent of television commercials contain a toll-free number, 91% use the 800 prefix; 57% are vanity numbers.
- 79% percent of commercials with toll-free numbers display the number prominently.
- Forty percent emphasize the number with a voice-over by an announcer.
- Only 19% of the commercials featuring toll-free numbers are time sensitive, ``act now" or ``limited time"
- National advertisers are use vanity numbers more than numeric ones, and local advertisers use them about half the time.
- The top time slot is late afternoon/early evening.
- 79% of 15 second commercials with toll-free numbers use vanity numbers, as do 75% of 30 second commercials.
- In a tv campaign test of 1-800-PRODIGY versus their numeric 800 number, the vanity number pulled 25% more response, over a 24 hour longer period of time.
- After running 1-800-JEEP-EAGLE in tv commercials, follow-up determined that within twelve months of the first call to the number, 50% of callers converted to a sale, buying either a Jeep Eagle, or a comparable brand, concluding that the vanity number triggered more qualified leads.
- In a recent study, radio ads with a vanity 800 number drew fourteen times more calls than those with a numeric 800 number.

800 numbers for Customer Service

- To decrease returns by as much as 50%, use an 800 number on product literature.
- Companies who take orders by fax realize as much as 40% order increase by having an 800 number publicized.
- Adding an 800 number to your e-mail signature will increase productivity.

HOW DOES IT WORK

STANDARD ROUTING

Only one number - Only good for one company location

Standard phone routing...

One number is active in 216 Area Codes and only one person could use that number and to only one phone line. No one else could have that number.

That means for business' trying to get a really good Unforgettable Toll Free Number. Once it is gone it is gone!

That means if anyone from anywhere in the country calls your number, this tells the local router connected to the global phone network where to send the number. Then it sends it to your phone.

In the past you could also block your number from other areas, meaning it would appear not to work if you didn't want to receive calls from outside your state for example. This is common with most Toll Free Numbers.

They search for the Area Code, Prefix, and the last four digits. Like the Postal Service the search refines as it gets closer to you.

Area Code - Directs it to that region of the country

Prefix - Directs it to your area

Last four digits - Pin Points you at your business.

ENHANCED ROUTING

Only one number But good for multiple companies and locations

Now with Enhanced Routing features...

Our number can be routed by:

- States you want
- Area codes you want
- Prefixes for your city or town that you work in.

Then when someone dials 1-800-A1 Homes for example, the router finds its origin and directs it to the business in its area. With no voice prompts, just goes straight through to your existing phone network.

That's it no extra phone lines

- **No extra phones**
- **No interruption in you business**
- **Keep all your existing numbers.**

After the trial offer is up, you can simply stop or sign up for additional use.
Must complete service plan agreement and fill out billing information's forms to get started.

What are you doing to make your business stand out from the competitor? by Tim Fischer - Unforgettable Phone Numbers LLC.

First people have to find you, or you have to find them.

The trick is being in their sight the split second when they need your service or product. If they have to re-find you, they have to sort you out of your competitors. If you can be in their memory you will have the first opportunity to sell.

A catchy phrase or jingle helps them remember you. Even when they go to find you they will go to a place only to look at your competition as well. Even brand name products loose hundreds of sales because they got enticed by the competitor, when they were on the way to make the purchase. The best way to beat the competition is to keep the customer from seeing or thinking about them. Out of sight; out of mind.

If you depend on your customers, both new and old, to call you, your phone number is the front door to your business. When you advertise, if they are forced to look up your phone number you are forcing them to see your competitors. If their were 10 stores in a row, all selling the same service or product which store would want to have? The first one or the last one? If your phone number is your front door, how many stores (yellow page ads or listings) does your customer have to go by to get to yours? Stop driving your customers to your competitors, get a word number today.

If they remember an action word or your name and it contains your phone number, it will keep them from getting enticed by your competition. You will be surprised at how many more calls you will get from the same advertising.

All businesses have an overhead amount they must hit before they see the 1st dollar of profit. If you have a \$500,000 overhead and your current advertising budget is \$10,000 and at the end of the year you had 30 customers witch generated \$500,000 Gross receipts...you are even but with no profit. You spend \$2000 more on advertising and your gross receipts goes to \$600,000 because of 6 more customers and you now get a \$60,000 profit. How important is the last \$2000 of advertising. The last few customers is quite often were the profit comes from. Lets treat your house hold income as a business.

Lets say you made \$100,000 in a year and at the end of a year after you paid all basic living expenses you had a \$10,000 savings account. (Disposable income or fun money.) The next year you made \$55,000 that's \$5,000 more excluding inflations cost of living increase. Your Disposable income has doubled, or you could say your business was twice as profitable even though your gross receipts only went up by about 10%.

Why don't more business have an unforgettable number? Usually they are un-attainable for the small guy. 90% of the fortune 500 companies have one. That should tell you something.

Good word numbers are very hard to find and can be vary expensive, as an example there are 7.5 million 800#'s, only the number 800-438-2152 says "Get A1 Lawyers"...but it also says "Get A1 Land", "Get A1 Lawns" and "Get A1 Lamps". Several industries are looking for the same number.

There is so much more to say on this matter, but if you have more questions please feel free to call.

Our Money Back Guarantee (for our long term users)

If you decide for any reason you do not want your UPN number after 12 months of use, we will refund the last 6 months of licensing fees (excluding the line usage charges) providing the following conditions are met.

You must keep the number active and your account current for all 12 months.

You must provide proof that you put the number in two different types of advertising running consistently for the last 9 months previous to the stop service request date.

You must provide us with a written statement that says; "please cancel our UPN (indicate the numeric number)" and sign and date it. No explanation is necessary. Before the 13th billing cycle.

This guarantee applies to the first 12 months of service.

- No refunds of any kind will be made after the 12th month.

You may cancel at any time. However you will forfeit the money back guarantee if the above conditions are not followed or it is past the 12 months of service.

Impact on Radio

RADIO RESULTS STUDY

Study Finds Vanity Numbers Garner More Calls

Jan 20, 1999 12:00 PM, DIRECT NEWSLINE STAFF

Easy-to-remember phone numbers dramatically increase advertising response rates, according to a new study by Michael J. Motto Advertising in New Providence, NJ. The study found that radio ads with a vanity 800 number drew many more calls than those with a numeric 800 number. Vanity numbers are those that translate into words for easy recall.

The study, "Toll-free Numbers in Radio Advertising," ran 66 radio ads on WDHA FM in Cedar Knolls, NJ for Denville Nissan in Denville, NJ. The ads ran on equal rotation, half with a numeric 800 number, and half with the number 800-NEW-WHEELS. The 60-second ads ran from Saturday, December 26, 1998 to Friday, January 1, 1999, and generated 140 phone calls. For every call the numeric 800 number got, the vanity number got 14.

"It's a no brainer, especially in electronic media, that vanity numbers are easier to remember," said Ray Murray, vice president at Motto Advertising. "The survey showed not only that they work better, but that they work dramatically better."

What Happen's after you start with us?

After you start with UPN we don't just leave you to fend for yourself.

We give you all sorts of materials to help you get up an running with advertising your new number.

If you advertise on the Radio or TV you already know what to do. But, if you don't advertise in those area's that's where our marketing department comes in.

- We help make sure the number is working in your area.
- Make started decals for your vehicles and trailers of the number you singed up for.
- Will provided customized decals to match your existing vehicles sizes and shapes.
- Bi Monthly E-Newsletters with tips and testimonials on other marketing tips we have learned from our other clients along the way.
- We provide low cost vinyl decaling for any of your other needs, such as signs, banners, etc.

We believe the number has to be a success for you for it to be a success for us.

Advertising Help

New customers promotion \$200 - \$400 vinyl lettering for free, when you sign up for a Metro Service Plan or higher.

After that we can offer 50% savings on vinyl lettering to help assure you can get your number on as many vehicles as you own!

First, we will send you some standard size vinyl letters of your number, commonly it works out to be enough for at least two vehicles.

The size is 5" H x 45" to 48" Long color is typically white. From there we work on customizing the sizes for your vehicles.

See your vehicles and trailers lettered ahead of time using our in house graphics department. They take your digital photos of your vehicle and "Photoshop" the decals on to your vehicles before you even get the decals. That way you can know exactly what it can look like and make adjustment from there.

Then we can also you get great yard signs for great prices also:

Order 20 or more of our 18" x 24" Coroplast signs and they only cost \$10 each plus shipping. (stand included)

Customized with your company name on the bottom.

To help keep prices down on vinyl lettering your vehicle we supply you with easy directions & installation tips, to make it easy to install them yourself.
